with **chumbaka**

"I'm looking forward to applying my skills in university - I hope to become an independent innovator or maybe come back and be a mentor to inspire others."

Gabriel, 15 yrs old,
Student @ Chumbaka SibU

"My mom didn't even know I needed a computer for the Chumbaka classes - I had to quarrel with her about it"

- Marcus, 15 yrs old

At Chumbaka SibU, a group of students have decided to band together as they embark on an inspiring journey of learning and self-discovery with the help of technology. While different, what these boys have in common is a love for learning and an eagerness to share this love with others...
